SKIRTING BOARDS

# MORE THAN... JUST SKIRTING BOARDS

Innovation, quality and know-how. Since 1994 we've been investing in knowledge, technology and our machinery park.

We aim to become market LEADER wherever we are present. We are pushing forward and strive for more to deliver accessories perfectly matched to the products.

## WE TRY HARDER, WE ARE THE FLOOR EXPERT

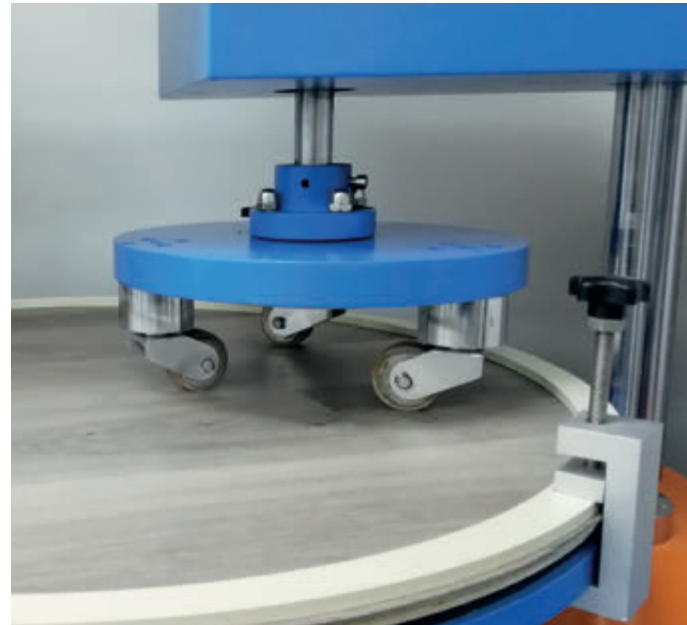

## DESIGN

Every year A.DESIGN STUDIO analyzes trends, changes in consumer preferences and hundreds of new floor colors. That's why we can create customer orientated solutions and stay relevant.

## TECHNOLOGY

Our inhouse laboratory is testing hundreds of floors from all major manufacturers to improve our accessories and create functional floor system. That's why, we know the strongest and weakest points of all types of floors. We are also testing our underlays to deliver top quality solutions for different floor types.

## MANUFACTURE

We are an European leader for production of floor accessories. Our technological development allows us to offer great portfolio of products in various technologies.

# SOLID CORE SKIRTING BOARDS

## **TORE**

We do not limit ourselves and stop pushing towards innovation. That is what drives us to create new products. Initially we have set an ambitious goal for new our skirting board.

TORE is our new hybrid skirting board produced in a brand new technology giving it a 100% water resistance as well as a higher abrasion resistance. Due to the highly advanced technology of digital printing - piezoelectric UV LED with high-resolution (up to 1800 dpi), we gained an unprecedented fidelity to raw materials at the surface of the skirtings boards, which now look like actual wood, stone or concrete. It allowed us to ideally match design of the skirtings not only with our floors but also with the most popular designs on the market.

**PERFECT MATCH**

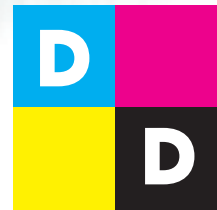

**DEEP MATT SURFACE**

**100% WATERPROOF**

**DIGITAL  
DESIGN**

With a multistep process of production TORE gains a perfect matte surface. As a result, skirtings boards obtain a deep thread design enriching each interior and underlining its beauty. More importantly, used technologies provide the resistance to UV light - the design of the skirtings stays protected for years without discoloration and the colour remains as intensive as at the moment of installation. Except for the design, we also took care of the practicality. Due to the water resistance and matte surface, TORE is easy to clean. It will not be damaged in the process of scrubbing or vacuuming.

In addition, our product is environmentally safe. The printing technology is using the VOC Free and solvent-free inks and is eco-friendly. All these factors resulted in an excellent product which we are proud to share with you.

**VIGO**

IT IS TIME TO END WITH DIFFICULT CHOICES.

Thanks to our solutions we've created the skirting board in hybrid technology. Now, you have high quality surface of lacquered MDF skirtings and the flexibility and waterproofness of PVC skirtings.

What else?

Easy assembly and dirt resistance. Thanks to the additional flexible and integrated seals, we have waterproof barrier on two sides - from the wall and from the floor.
